DECLARATION OF AN AREA AS A CONSERVANCY: !KHOB !NAUB (KALK PLATEAU) CONSERVANCY

In terms of section 24A(2)(ii) of the Nature Conservation Ordinance, 1975 (Ordinance No. 4 of 1975), I declare the area, of which the geographic boundaries are set out in the Schedule, as the !Khub !Naub (Kalk Plateau) Conservancy situated in the Karas Region.

**DESCRIPTION OF BOUNDARY OF THE N#A-JAQNA CONSERVANCY
SITUATED IN THE OTJOZONDJUPA REGION**

The point of beginning is at point 1, which is situated in the south-eastern corner of the conservancy. From the point of beginning the boundary follows the veterinary fence in a western direction up to point 2, when it turns north-westerly along the veterinary fence to point 3 and then in a northern direction still following the veterinary fence to point 4. From this point the boundary turns eastwards to point 5 and then in a south-western direction up to point 6, whereupon it follows a road in a north-eastern direction to point 7. From here the boundary moves in a south-western direction to point 8 before turning southwards to point 9, which is situated on the main Tsumkwe-Grootfontein road. The boundary follows this road in a western direction through point 10 to point 11, before turning southwards to point 12 and then in a south-western direction to point 13. From this point the boundary follows a road in a southern direction up to the point of beginning.

**DECLARATION OF AN AREA AS A CONSERVANCY:
//HUAB CONSERVANCY**

In terms of section 24A(2)(ii) of the Nature Conservation Ordinance, 1975 (Ordinance No. 4 of 1975), I declare the area, of which the geographic boundaries are set out in the Schedule, as the //Huab Conservancy situated in the Kunene Region.

A map of that conservancy will lie open for inspection at the offices of the Directorate: Parks and Wildlife Management in the Ministry of Environment and Tourism, Capital Centre, Independence Avenue, Windhoek.

**DESCRIPTION OF BOUNDARY OF THE //HUAB CONSERVANCY
SITUATED IN THE KUNENE REGION**

The point of beginning is the most eastern corner of farm **Halt 379** at point **A**.

From the point of beginning the boundary follows the south-eastern boundary of **Halt 379** in a south-western direction; and then moves in a generally western direction along the southern boundaries, in turn, of farms **Halt 379**, **Horison 489**, **Tussenby 729**, **Bergville 490**, **Lofdal 491**, **Ruimte 510**, **Rushof 509**, and **Toekoms 508** to point **B** at the most southern corner of **Toekoms 508**. From point **B** the boundary continues in a generally north-western direction along the western boundaries, in turn, of farms **Toekoms 508**, **Boesmanspan 507**, **Soutput 505** and **Noute 674** to point **C** at the north-western corner of **Noute 674**. From point **C** the boundary proceeds in a generally eastern and then north-eastern direction along the northern boundaries, in turn, of farms **Noute 674**, **Eersbegin 675**, **Tweelingskops 676**, and **Anabis 677** to point **D** at the north-eastern corner of **Anabis 677**. From point **D** the boundary carries on firstly in a southern direction along the eastern borders of farms **Anabis 677** and **Spitskop 678** to the intersection with the north-western corner of farm **Aub 683**, and then in an eastern direction along the northern borders of farms **Aub 683** and **Smalruggens 684** to point **E** at the north-eastern corner of **Smalruggens 684**. From point **E** the boundary progresses in a south-eastern and then south-western direction along, firstly, the eastern boundary of **Smalruggens 684** and then the southern boundaries of farms **Smalruggens 684** and **Rockeyes 682** to point **F** where it meets the north-eastern corner of farm **Braklaagte 492**. From point **F** the boundary advances in a south-eastern direction along the eastern boundary of **Braklaagte 492**, continues along the north-eastern boundary of farm **Potgietersrust 489**, turns easterly and then continues along the northern boundary of **Horison 489** to its intersection with the most northern corner of **Halt 379**, and then returns in a south-eastern direction along the north-eastern boundary of **Halt 379** back to the point of beginning.
