

maximising wildlife returns by minimising threats...

Kyaramacan Association (Chetto, Mutjiku, Omega 1, Omega 3, Masambo Combined)

Performance Indicators

Management performance in 2023

Category	Chetto	Mutjiku	Omega	Omega 3	Masambo
1 Adequate staffing					
2 Adequate expenditure					
3 Audit attendance					
4 NR management plan					
5 Zonation					
6 Leadership					
7 Display of material					
8 Event Book modules					
9 Event Book quality					
10 Compliance					
11 Game census					
12 Reporting & adaptive management					
13 Law enforcement					
14 Human Wildlife Conflict					
15 Harvesting management					
16 Sources of NR income					
17 Benefits produced					
18 Resource trends					
19 Resource targets					

Key to performance indicators

A horizontal color scale consisting of a red square, a yellow square, a green square, and a blue square. Below the scale, three labels are positioned: 'weak/bad' under the red square, 'reasonable' under the yellow square, and 'good' under the green square.

Performance is assessed on a scoring system from zero (none) to a maximum of between 3 and 6 (strong/excellent) depending on the indicator.

Indicators 1-17 reflect the performance of the management team in place in the conservancy and an efficient team can achieve a good result in a short time.

rating in all 17 indicators. Indicators 18 & 19 are influenced by external factors and are not considered a reflection of conservancy management. They indicate the current status of wildlife in the conservancy in relation to a theoretical optimal situation.

Kvaramacan Wildlife removals – quota use and value

Effective monitoring is key to understanding the status of wildlife in the region and for the effective management of the environment.

Conservancies reduce environmental costs while increasing environmental returns.

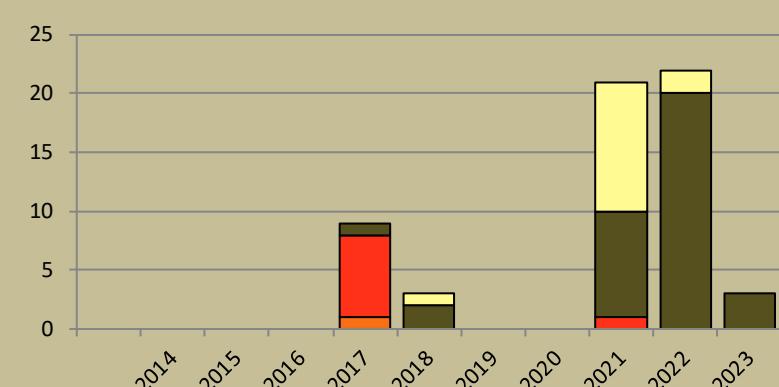

Kyaramacan Association: Chotto

Human wildlife conflict

Human wildlife conflict trend

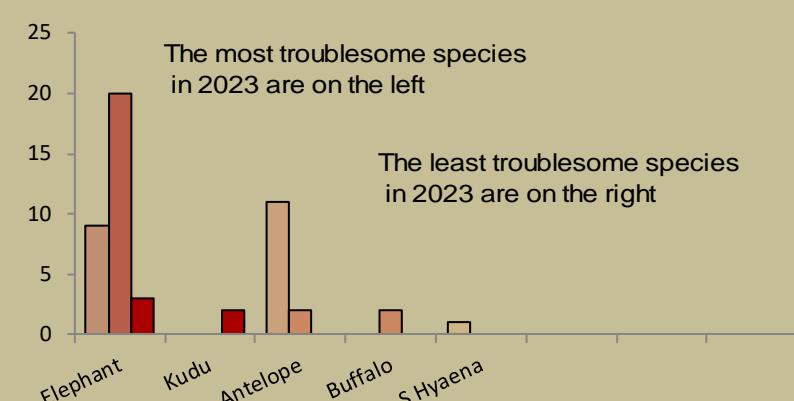

The chart shows the total number of incidents each year, subdivided by species, grouped as herbivores and predators

Lion	Leopard	Crocodile	Other predators
Elephant	Hippo	Pigs/Porcupine	Antelope/baboon

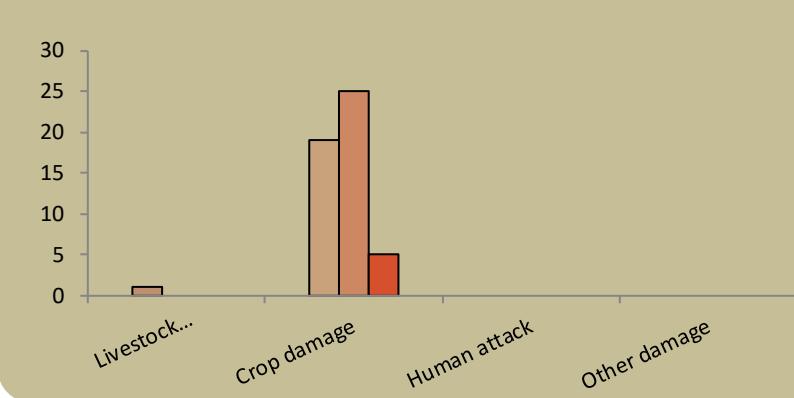

Most troublesome problem animals 2021-2023

The chart shows the number of incidents per species for the last 3 years; the darkest bar (on the right) indicates the current year for each species

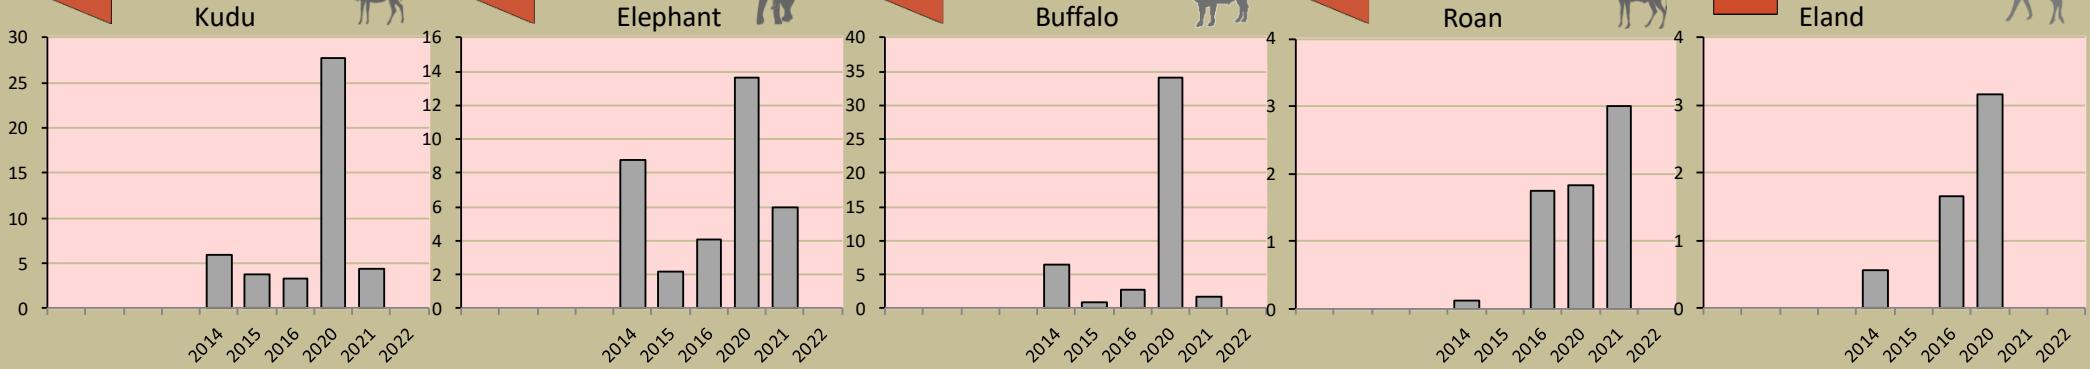

Type of damage by problem animals 2021-2023

The chart shows the number of incidents per category for the last 3 years; the darkest bar (on the right) indicates the current year for each type

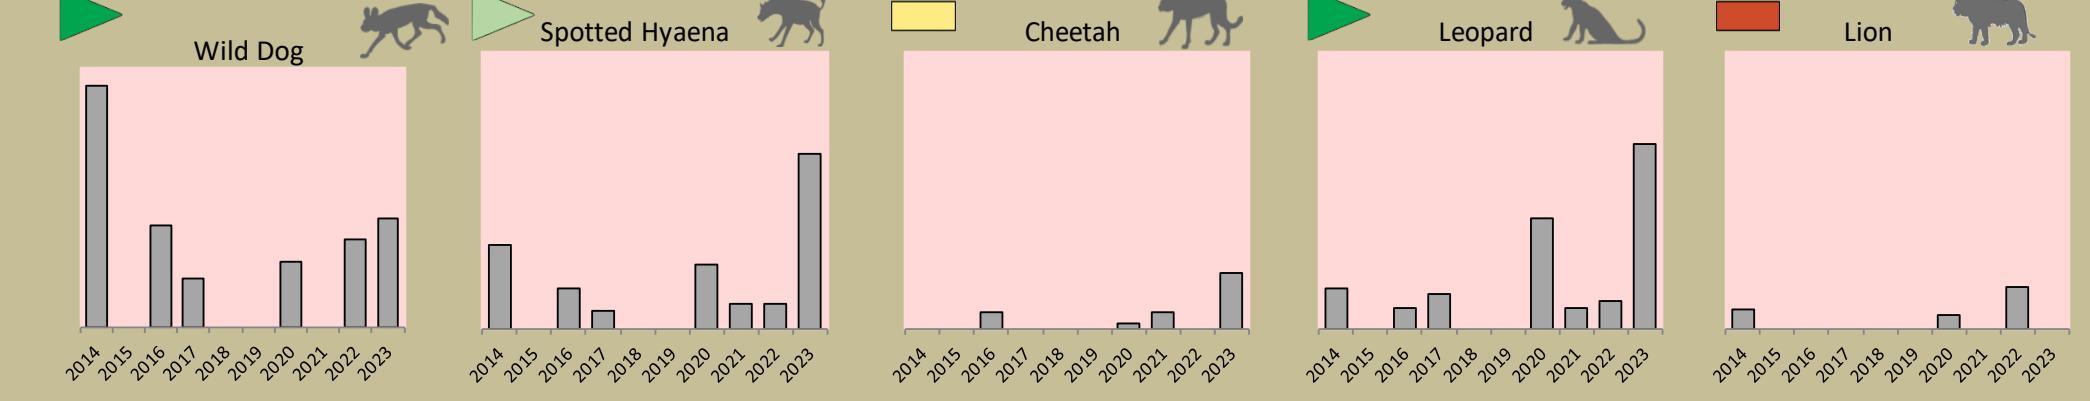

Fixed route patrols

charts show the number of sightings of each species per fixed route foot patrol each year
Status barometers reflect the general sightings trend over the last 5 years

Predator monitoring

charts show the average number of animals seen per Event Book each year
Status barometers reflect the general sightings trend over the last 5 years

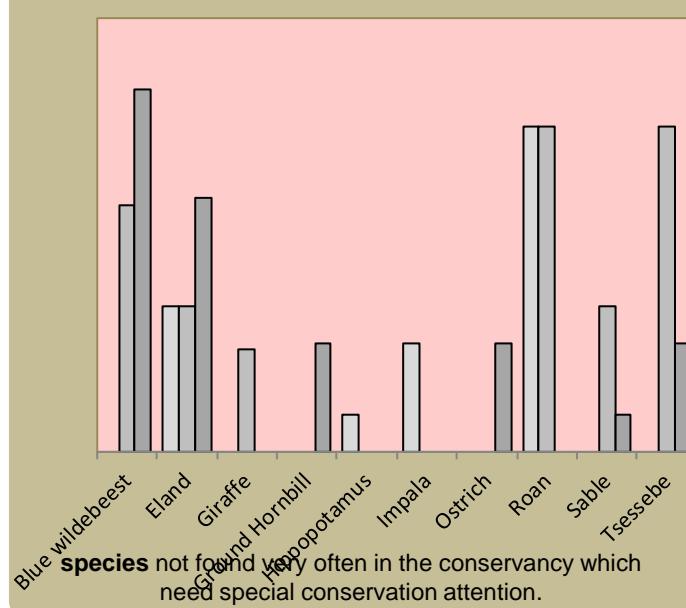

Wildlife provides a wide range of benefits. Some wildlife can cause conflicts, but all wildlife is of value to tourism, trophy hunting and a healthy environment.

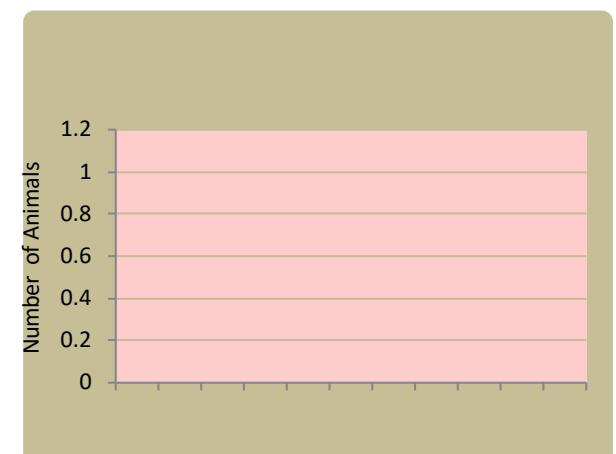

By using all the available information and adapting and improving activities, threats such as human wildlife conflict, poaching and other issues can be minimised.

Locally rare species

Enabling wise conservancy governance...

Conservancy Statistics

Date Registered:	January 2006
Population (2011 census):	4660
Size (square kilometres):	4100
Registered members:	629

Key Compliance Requirements

Was an AGM held?	✓
Were elections held?	N/A
Were benefits distributed according to the BDP?	✓
Is game managed according to the GMUP?	✓
Was the financial report presented and approved?	✓

Conservancy Governance

	Male	Female	Total
Number of management committee members	5	1	6
Attendance at AGM			137
Date of the last AGM:	15/12/2023		
Date of the next AGM:	Dec-24		
Other important issues			
Budget approved?	✓		
Work plan approved?	✓		
Annual conservancy report approved?	✓		

Benefit Distribution

Type	Description	Beneficiary	Number
Community Devp.	Solar Systems	Households	14
Social Benefits	Church Financial Support	Church	
	Funeral Support	Households	6
	Scholarship	Members	1
	School Grant To Buy Books	School	1
Meat Distribution	Game Meat	Members	
Other Benefits	Cash To Ta	Induna	
	Hwc Offset	Members	

Employment

	Male	Female	Total
Conservancy staff (Incl. CGG & CRM)	40	27	67
Number of Community Game Guards	30	22	52
Number of Community Resource Monitors:	30	22	52

Governance Performance Rating

How well did the conservancy perform in the past year?

Performance Category	This Year	Prev. Year	Explanation of performance category
Member engagement			The conservancy is adequately engaging its members
Benefit planning			The conservancy developed its BDP in a transparent and participatory manner
Benefit distribution			The conservancy distributes benefits to its members in a fair, transparent and equitable manner
Accountability			Conservancy members are holding the management committee accountable
Stakeholder engagement			The conservancy maintains relationships with key external stakeholders
Financial management			The conservancy is effectively managing its finances
